

Paradise

A celebration of florals with a modern interpretation; it has a vintage feel that transports us to the 19th century French chateaus. From home dec to fashion accessories, two interchangeable palettes will allow you to create infinite possibilities.

Influenced by bohemian and vintage aspects, Paradise results in a very trendy collection that is both feminine and wearable.

Create beautiful spaces that are modern and sophisticated yet warm and cozy. Try mixing and matching both colorways for pillows, and using framed fabric as wall art!

Hey girls!

A while ago I had the great opportunity to travel to Paris, a city that lives and breathes culture and overwhelming beauty.

Stunning buildings, beautiful store windows and gorgeous flowers served as inspiration for this new line: "Paradise".

I specially made these Dream Boards for you to see some ideas that hopefully will inspire you to unleash your creativity!

From fashion to decor, Paradise is all about classic sophistication that suits the modern lifestyle.

Enjoy!

*Love,
